

Cures for Kids

Soaring with the Power of Hope

Volunteer Application

Work alongside members of the student leader team to help cure kids!

What is the Cures for Kids Foundation?

The Cures for Kids Foundation is a group of dedicated young individuals who are committed to improving the lives of pediatric patients in British Columbia. Through our own fundraising efforts, the Cures for Kids Foundation is able to provide financial support to pediatric health institutions in B.C., as well as information and community awareness for the children and families who are affected by childhood illnesses.

What role do the volunteers play?

Our volunteers make the efforts of Cures for Kids possible. The student leader team is the vital link between the foundation and the community. Become an important part of the movement to treat childhood illnesses through volunteering and planning events, attending meetings, giving community presentations, and working as a member of the team to spread the Cures for Kids reach!
